Registration for the domain name shown below has been completed.
Please let us know if any changes are required by resubmitting
the domain template with a subject line reading MODIFY DOMAIN.

If registered before 18:00 Eastern Standard Time on a business day,
the domain name will be included in today's root server update -
about 22:00 Eastern Standard Time. Otherwise, it will be in the
root server update for the following business day. The domain name
record will be visible via "whois" tomorrow morning.

Registering a domain name does not confer any legal rights to that
name and any disputes between parties over the rights to use a
particular name are to be settled between the contending parties
using normal legal methods (See RFC 1591).

The domain template can be used to replace a contact with a different
contact or register a new contact, but can not be used to update
the record of an existing contact. To update information associated
with the administrative, technical, or billing contact (for example,
a change of postal address, phone number, or e-mail address for a
contact), please use the contact template available at:

<ftp://rs.internic.net/templates/contact-template.txt>

The domain template can be used to replace existing name servers with
new name servers, but can not be used to change the name or IP address
of an existing host. To update the name or IP address of a host,

please
use the host template available at:

ftp://rs.internic.net/templates/host-template.txt
